

Anthropology and Social Change

*** Social Change: Any significant alteration over time in behavioral patterns or cultural norms.**

Write this
down

* **Reminder from unit one:
Anthropologists regard CULTURES, the
focus of their studies as constantly
changing organisms**

Anthropologists say the social change happens because of:

Internal Factors

External Factors

Physical Environment

Population Change

Proximity

Technology

Social Environment

Internal Factors

Write this
down

- * **Invention:** A new product, idea, or social pattern that impacts how a large group lives their daily lives.

Example: Invention of the plough

External Factors: 1) Physical Environments

- * Climate, weather, vegetation, animal populations all have impacts on society

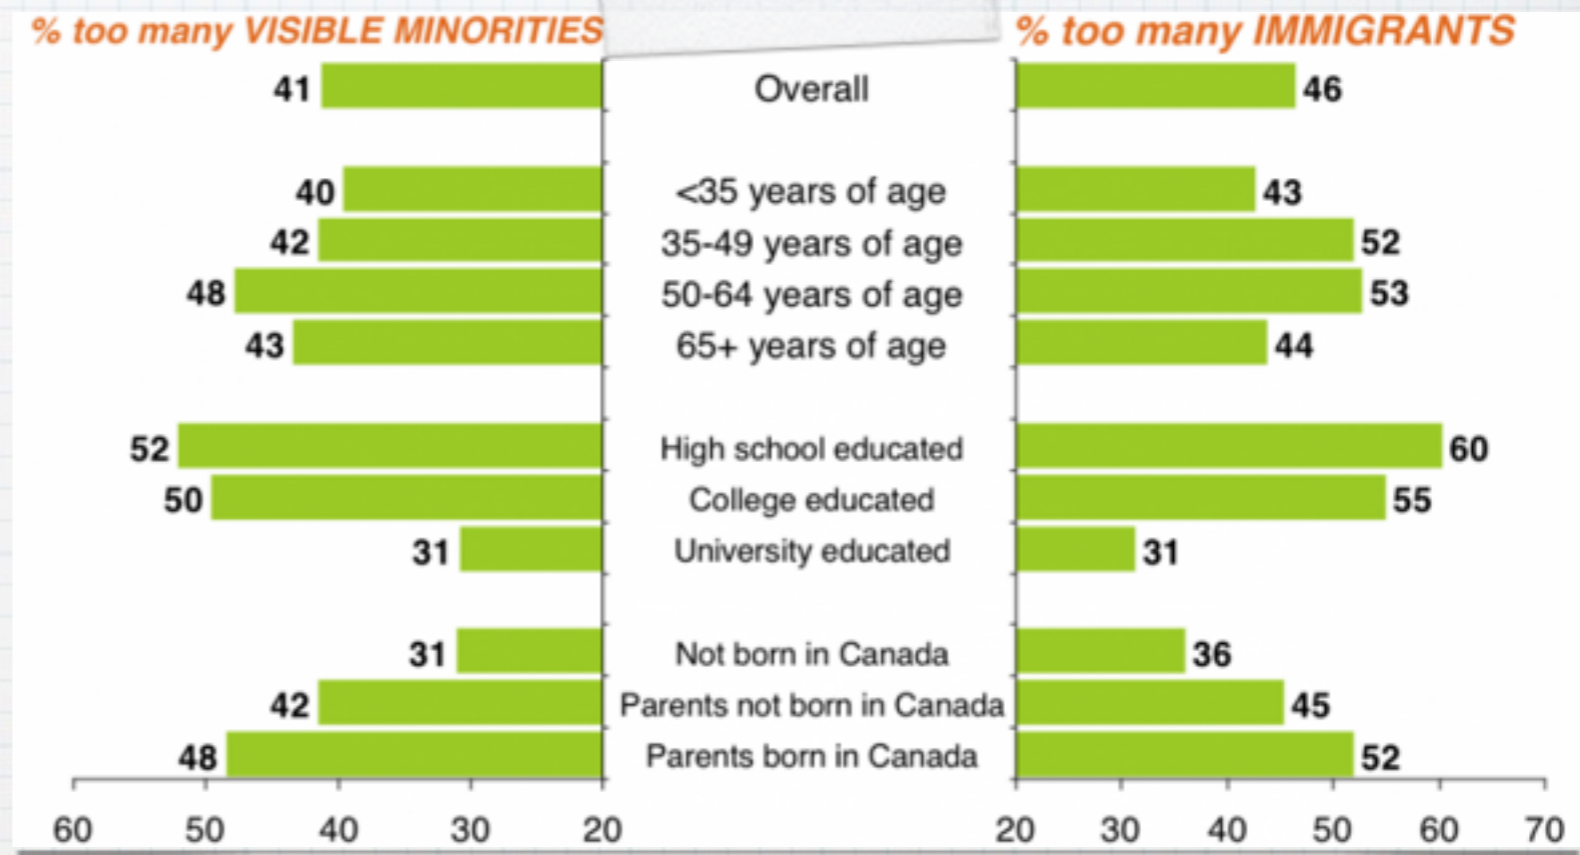

Write this
down

Example: Natural disasters

External Factors: 2) Population Change

* Immigration can lead to cultural exchanges between different groups.

Write this

Example: Immigration and Racial Tolerance

External Factors: 2) Population Change

- * If there is not enough people in an area due to emigration, social institutions must change.

Write this
down

External Factors: 3) Proximity

- * Societies in close proximity tend to change and develop more than those in isolated areas

Write this
down

Example: Ethnic Food

Two Types of Proximity Influences

- * **Diffusion:** the spread of culture from one society to another through contact

Write this
down

Two Types of Proximity Influences

- * **Acculturation:** blending between 2 cultures after close interaction over time, results in changes to both groups

Write this down

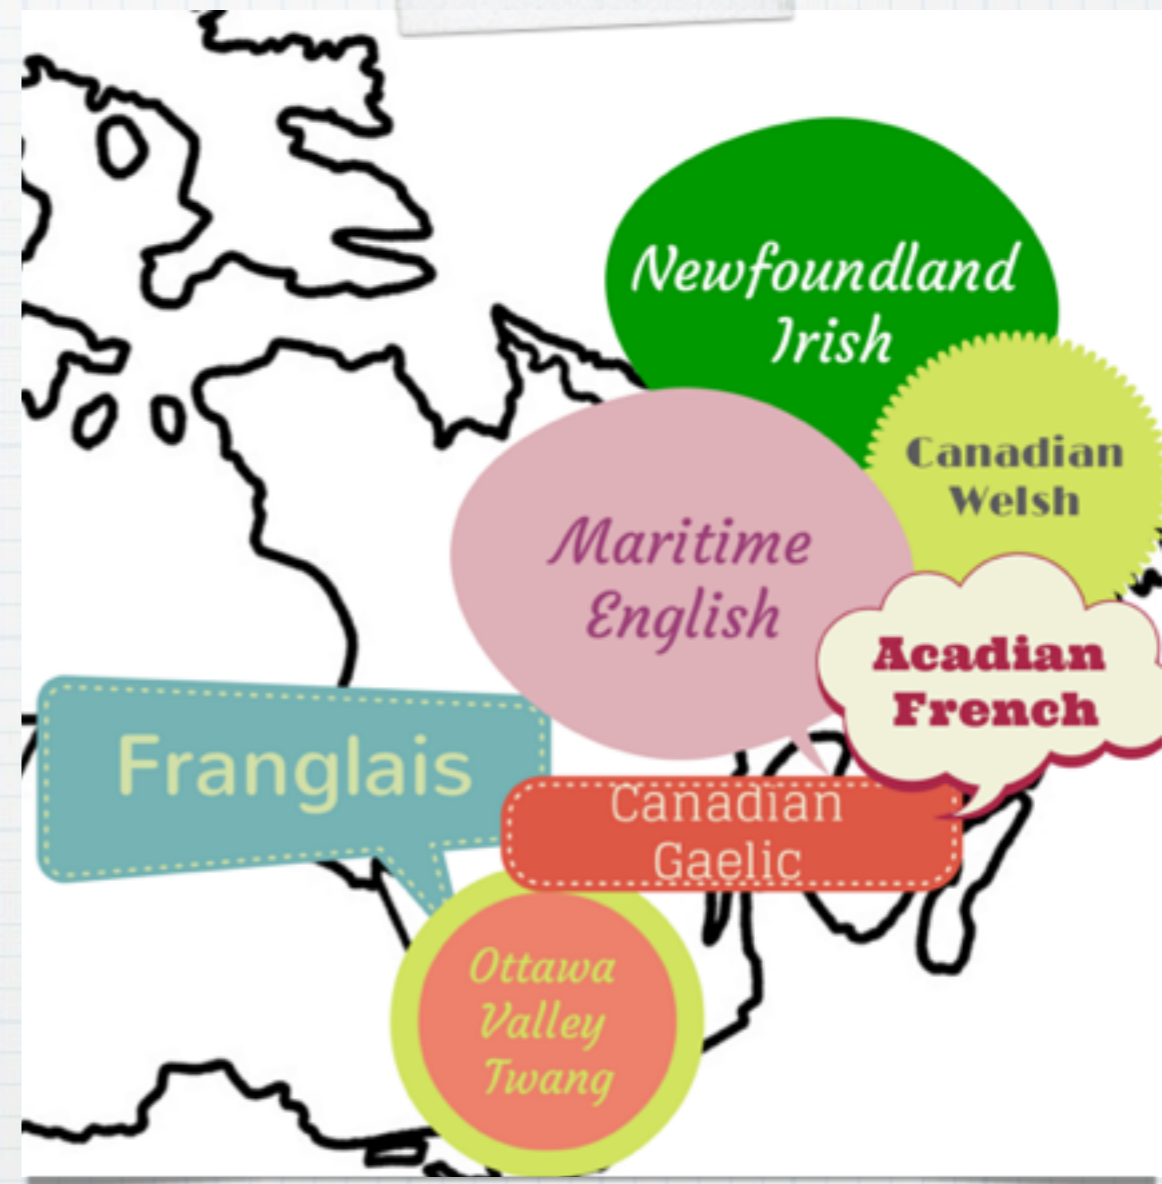

Acculturation Occurs because of:

- * Incorporation:
- * It can be freely borrowed
- * Canoe is Canadian cultural borrowed from Natives

Acculturation Occurs because of:

- * Directed change:
- * It can be forced; when one culture overtakes another and suppresses its people
- * We speak English & French... colonization

External Factors: 4) Technology

- * Technology alters the way we interact with our environment

External Factors: 5) Social Environment

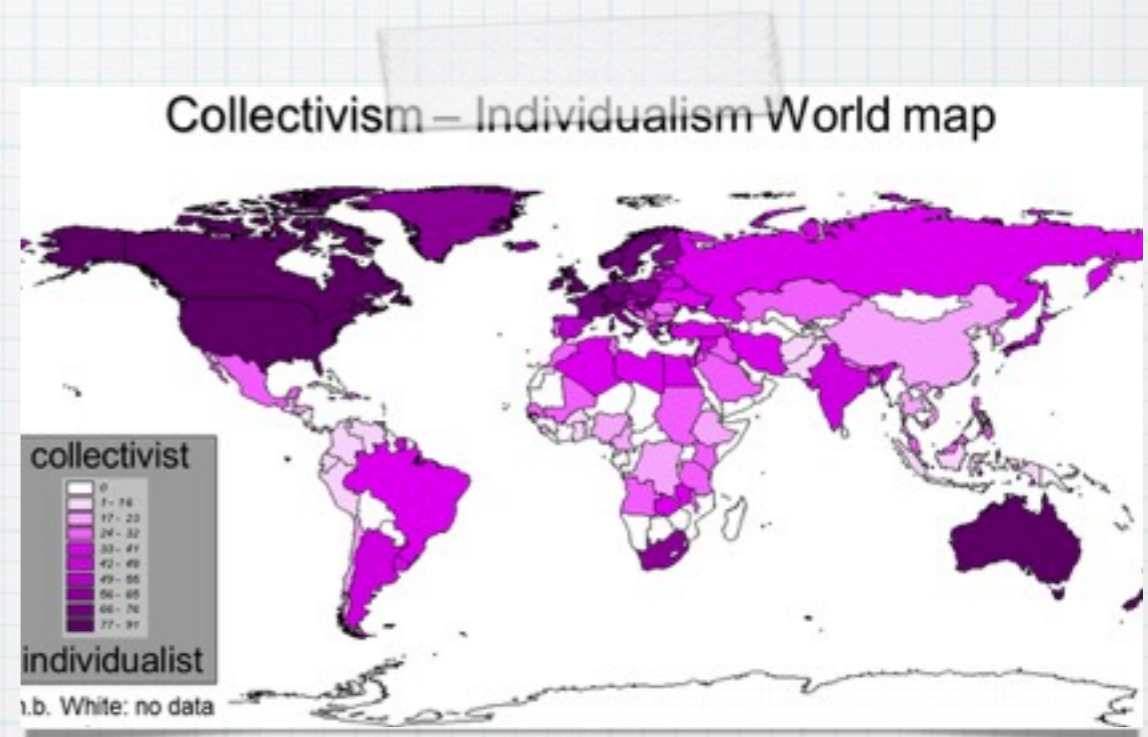

- * **Collectivist Society:** Value include conformity, uniformity, cooperation

Write this
down

External Factors: 5) Social Environment

- * **Collectivist Society:** Value include conformity, uniformity, cooperation
- * Duties and obligation to the group more important than personal privilege
- * Difficult for social change to happen

External Factors: 5) Social Environment

- * **Individualistic Society:** Social behavior guided by rights and freedoms

Write this
down

External Factors: 5) Social Environment

- * **Individualistic Society:** Social behavior guided by rights and freedoms
- * Tolerant of cultural variability
- * Easier for social change to happen

Anthropology and Mental Wellness

* Question:

* Do you consider yourself an adult?

* In this society how do you know you are an adult?

Rites of Passage

- * What are some rites of passage in your culture?
- * Do you think they are important in the development of mental wellness

Anthropology Schools of Thought on Social Change

Schools of Thought in Anthropology

- * There are two schools of thought in cultural anthropology that look at social change:
 - * Cultural Materialism
 - * Functionalism

Functionalism

- * All cultures are set up to deal with various physical or psychological needs
- * Every custom serves a function

Write this
down

Functionalism

- * For social change to happen, it has to be in the best interest of the majority

Cultural Materialism

- * Believe there are three levels of structure in all cultures:
 - * Infrastructure
 - * Structures
 - * Superstructures

Write this
down

Cultural Materialism

- * Infrastructure
- * Technological and economic factors of culture
- * Material stuff they produce

Write this
down

Cultural Materialism

- * Structures
- * How culture is organized
- * Social classes and the distribution of wealth

Write this
down

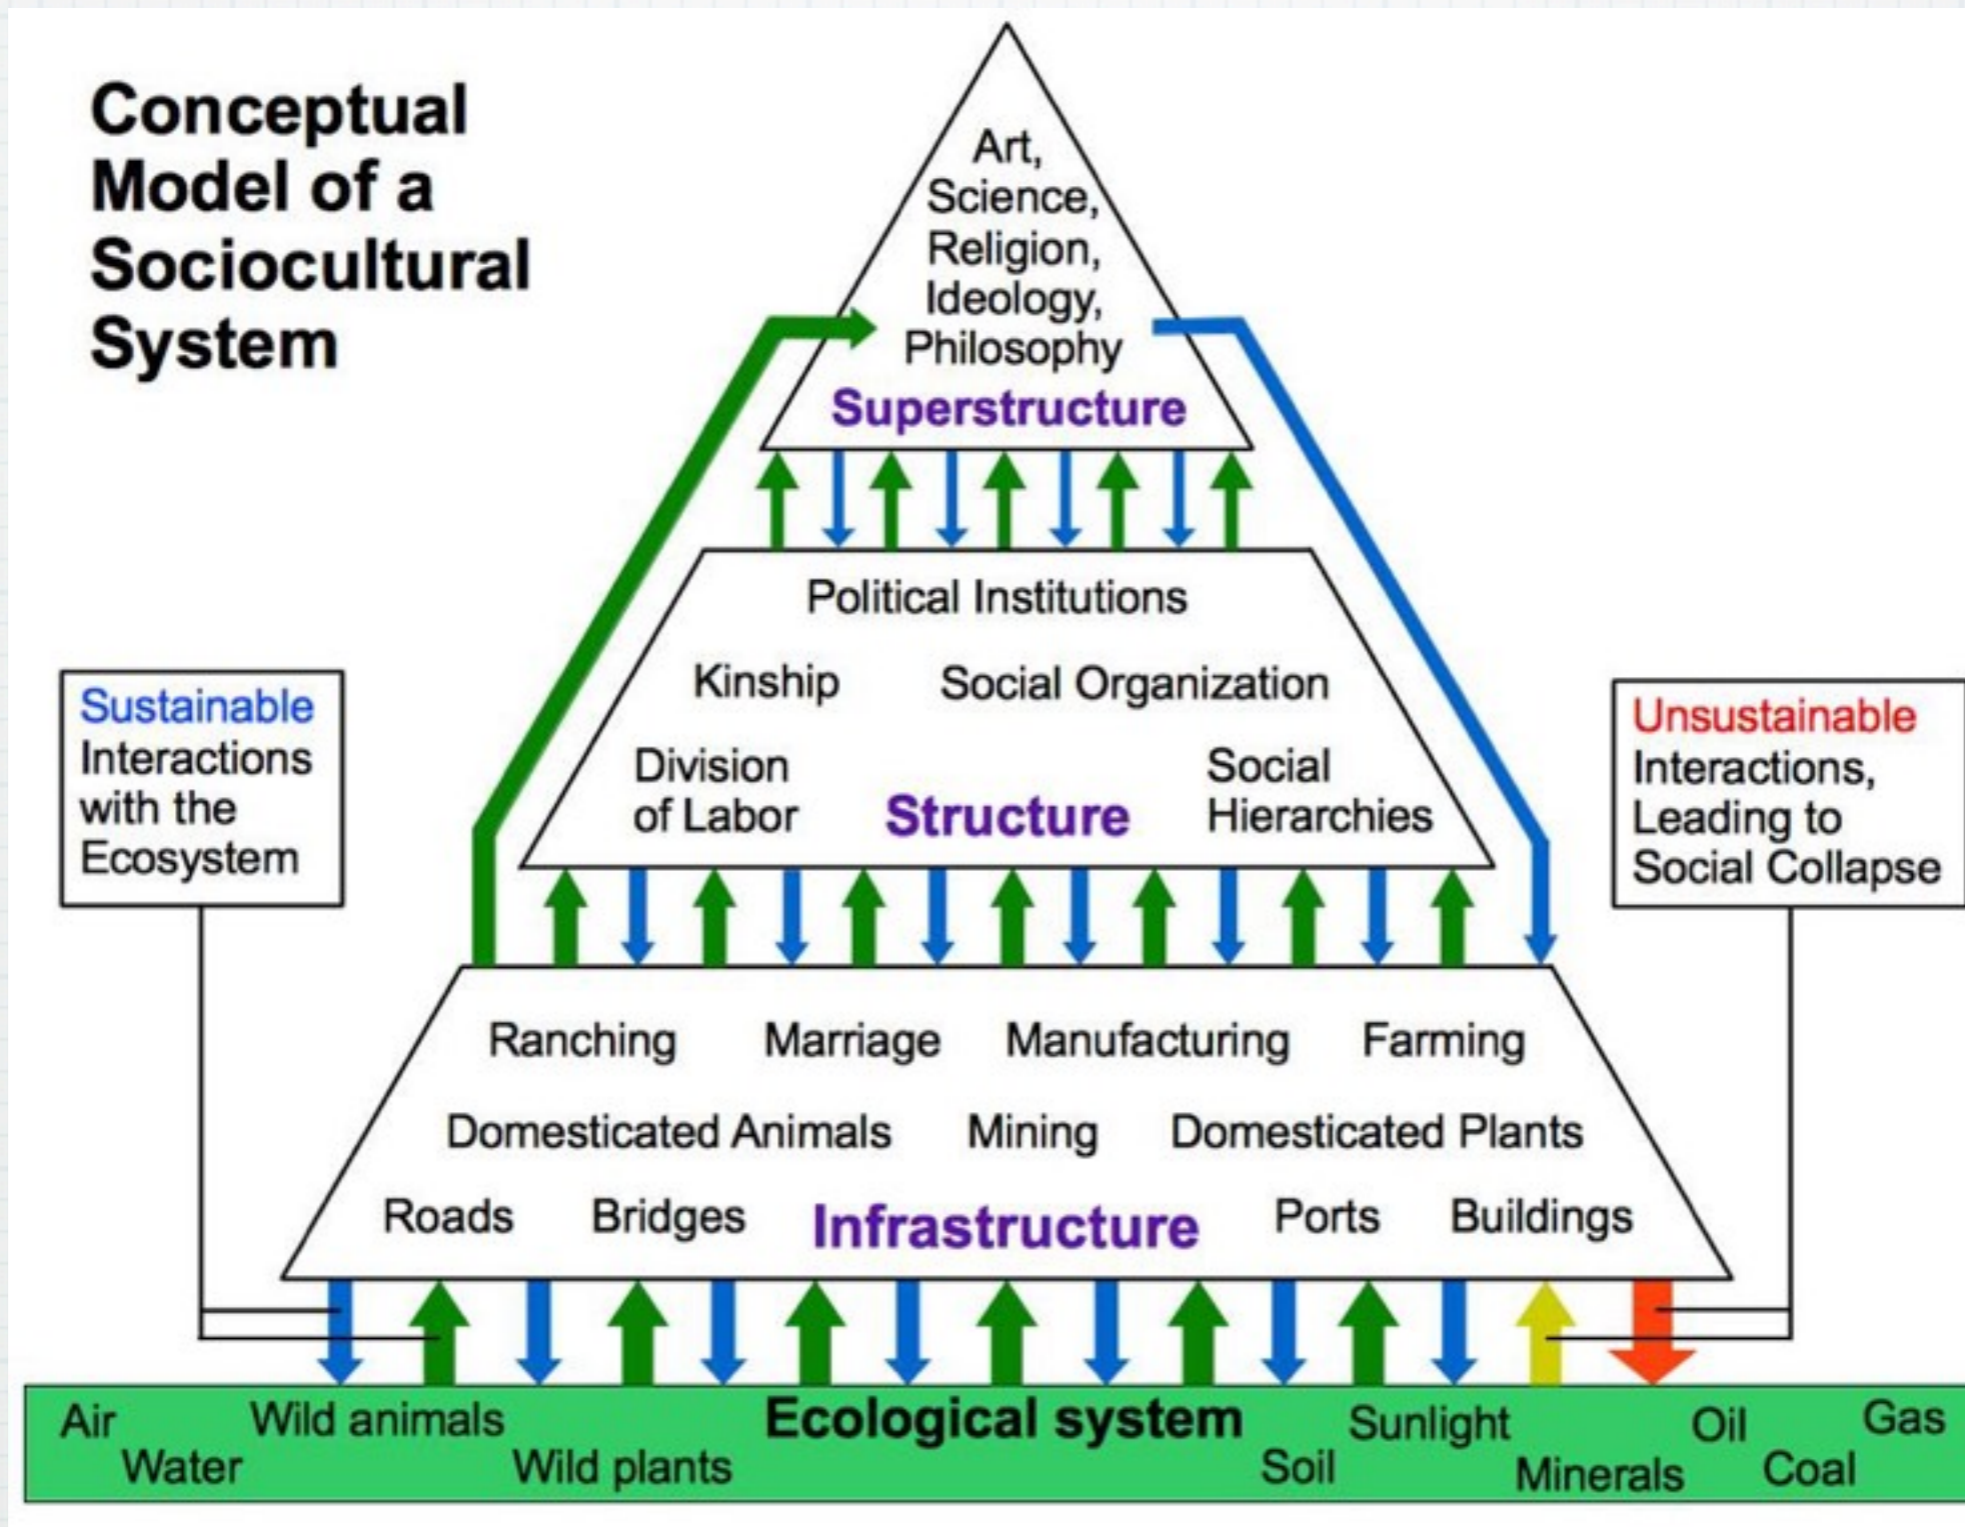

Cultural Materialism

- * Superstructures
- * Ideology of culture.
- * Music, art, religion, values

Write this
down

Cultural Materialism

School of Thought	Big Idea	Theorist
<p>Cultural Materialism</p>	<p>Physical materials, conditions, and economic activities determine how a culture develops.</p>	<p>Marvin Harris (1927 - 2001)</p> 
<p>Functionalism</p>	<p>The function of beliefs and institutions in a society is to meet the needs of the majority of its members.</p>	<p>Bronislaw Malinowski (1884 - 1942)</p> 

I don't see how you can write
anything of value if you don't offend
someone.

— *Marvin Harris* —

AZ QUOTES

Activity: Functionalism and Kinship

- * In groups analyze the various kinship patterns and family structures from around the world.
- * State how each pattern may serve a function that helps it's society.
