

Corrosion of Pennies Lab

Purpose: Create a purpose for your lab

Hypothesis: Create a hypothesis for your lab

Materials:

Corroded Pennies	Coke	Diet Coke
Water	White Vinegar	Distilled Water
Apple Juice	Sprite	pH Strips

Procedure

Create a detailed procedure of how you would test the rate of corrosion in pennies using the materials provided.

Discussion

What did you observe?

What factors affected the rate of corrosion in pennies?

Describe the process of corrosion in pennies.

Conclusion

Write a brief conclusion outlining your findings. Was your lab successful? What were some sources of error?
