

## What's Your Impact?

Your ecological footprint is the impact that you leave on your environment. To calculate your ecological footprint go to the following website <http://footprint.wwf.org.uk> and click on Get Started Now. Complete the quiz.

What was your ecological footprint?

List three factors that may have attributed to the size of your footprint.

## Threats to Wildlife

There are many ways that humans have impacted the environment around us. As our population grows, our impact becomes larger on other species. You will be using the National Wildlife Federation Website to do some research on ways in which humans may threaten other species.

Visit the website <https://www.nwf.org/Wildlife/Threats-to-Wildlife/Habitat-Loss.aspx>.

List the three major kinds of habitat loss and an example of each.
